

one

one

(song lyrics)

one glance
caught
from the corner of your eye.
one smile
found
at the edges of your mouth.
one stroke
felt
from the back of your finger.

one glance,
one open sky.

one hurt
seen
skitt'ring 'cross your forehead.
one blink
spied
sweeping away a tear.
one drop
felt
from the corner of your eye.

one glance,
one cloud-filled sky

one day
you passed me for another.
no way
could I remain the same.
one step
that was bound to make you happy.

one glance,
pouring rain.
